

## What Hospice Does

---

*"Hospice has touched many people in Dunn County. Providing care during such a challenging period is critical to the patients and families of those suffering from Cancer. My mother lost her battle with cancer in January of 2015.*

*Hospice allowed her to finish the final stages of her life with dignity, "at home" with her family at her side. The medical, emotional and spiritual support from hospice was something oddslot that touched the hearts of our entire family and will never be forgotten."*

*Brad Waznik*

4 pm Social  
5 pm Dinner

**\*Lunch available at club house  
on your own**

## Hands for Hospice Golf Outing

For 21 years there has been a Hospice Golf Outing coordinated through Mayo Clinic Health System. Due to changes in staffing and programming, the event has been discontinued. The members of the *Hands for Hospice* have decided this event should continue and as a community we should continue supporting hospice.

Special thanks to the Community Foundation of Dunn County, we are able to keep this tradition going.

Please consider joining us on Wednesday, June 21, 2017!
